EXPERIENCE

17A | *Boutique strategy consulting firm working with governments to enhance public service delivery* **Brooklyn, NY**
Manager, Healthcare **2024 – 2025**

State Department of Health: ~$4B Medicaid Program Launch

- Drove provider activation for a $4B state Medicaid program expanding housing and nutrition access, aligning operations and IT systems across 9 provider networks and enabling on-time launch of screening and referral pathways for 100K+ patients
- Stood up a post-launch provider success program in the State Health Insurance Office, implementing a ticketing workflow with IT vendors and leading weekly clinics with 20+ officials to triage and resolve 300+ cross-functional issues

Local Health Coalition: ~$45M Maternal Health Grant Implementation

- Introduced 4 preventative health initiatives in Dallas–Fort Worth by coordinating hospitals, universities, and community groups to develop joint programs and secure $45M in federal funds; on track to reduce maternal morbidity by 20% in 3 years
- Built and scaled a prenatal iron supplement program from scratch, mapping highest-need regions in Tableau and facilitating distribution partnerships with 60+ health systems and community sites; projected to reach 20K women annually

BAIN & COMPANY **Chicago, IL**
Senior Associate Consultant, Associate Consultant **2021 – 2024**

Medical Devices Co: M&A Software Rollout

- Managed a 3-person team in Bain's Advanced Analytics Group to design features, test use cases with deal teams, and support global adoption of Helix – an AI-powered M&A platform now used firmwide to accelerate diligence
- Piloted Helix with a medical device client to shape buy-side strategy; used Alteryx, Python, and internal large language models to identify 50 actionable private acquisition targets, informing a $100M acquisition

Physician Staffing Co: Restructuring and Spin-Off Strategy

- Designed a cost reduction strategy for a physician management company exiting 33% of business, deploying savings trackers across 6 service lines and 7 business functions; delivered 8% direct and 5% indirect G&A savings
- Created a market profitability model guiding the company's $1B outpatient division spin-off strategy, highlighting gastroenterology and ophthalmology as key growth drivers and driving $15M+ investments in each segment

Consumer Products Co: North America Product Launch

- Developed a market sizing model for a first-of-its-kind haircare product launch, identifying a ~$330M North American market opportunity and pinpointing 6 high-potential consumer segments for rollout
- Directed A/B testing of branding concepts through consumer research (3 surveys, 5 focus groups, 50 interviews) in collaboration with Bain's Innovation & Design Group, shaping go-to-market strategy that drove $100M+ in first-year sales

Private Equity Group: Commercial Due Diligence

- Informed 8 'go/no-go decisions' for investor clients to make $600M+ investments across software, healthcare, fast food, and retail assets by conducting expert interviews, customer surveys, market modeling, and internal data analysis

ACCION VENTURE LAB | *Global impact venture capital fund with 65+ early-stage fintech investments* **Washington, D.C.**
Bain & Company Extern, Investments and Portfolio Engagement **2023 – 2024**

- Crafted a Vertical SaaS investment thesis by analyzing growth data across 8 portfolio companies and interviewing 30+ fintech experts; thesis insights drove $350K in new investments across 2 software startups
- Headed a workshop series for a trucking software startup to design a scalable sales organization and introduce sales & marketing KPIs, improving lead-to-close rate by 66% and enabling the team to make first 3 sales hires
- Co-led diligence on a payments startup through financial modeling and customer interviews, securing a $120K investment
- Automated startup deal flow intake with Zapier and Airtable, boosting inbound founder pitches by 15%
